

TETRA TECH

April 30, 2018

Mr. Michael Rieger
Environmental Enforcement Specialist
DEQ Enforcement Division
PO Box 200901
Helena, MT 59620-0901

Dear Mike,

On behalf of Calbag Resources LLC., Tetra Tech is submitting an electronic version of Revision 1, Columbia Falls Aluminum Company, Final Waste Management Plan (WMP), for your review. The revisions are highlighted in yellow for ease of review since only a few pages of the document require updates. The only changes are to several pages of the main body of the document; therefore, the attached document includes the WMP text only. It is suggested that once you approve the changed text, we provide you hard copy replacement pages that you can insert into your current hard copy of the WMP.

A supplemental sampling and analysis plan (SAP) has been developed and will be included as Attachment 2 of this WMP. We are awaiting updated method detection limits from the laboratory performing the confirmation concrete samples analysis. Once received, which is anticipated to be within the next day, we will submit the supplemental SAP for your review and approval.

We appreciate your time and effort on completion of this important project.

Sincerely,

Katy Norris
Tetra Tech
